

AMENDMENTS TO THE CLAIMS

1 – 39 (canceled).

40. (currently amended) ~~The system of Claim 36 further~~ A system comprising:
a modeling tool;
a logical model;
a plurality of templates defining a plurality of services within a framework;
a code generator generating a source code object as a function of one of the templates and
the logical model; and
a data server providing query services,
wherein the data server receives the source code object and the logical model, and further
receives an object oriented query.
41. (previously presented) The system of Claim 40 further comprising:
a database, wherein the data server retrieves data from the database as a function of said
object oriented query.
42. (previously presented) The system of Claim 41 further comprising:
a client application generating said object oriented query.
43. (previously presented) The system of Claim 42 further comprising:
a object request broker for communicating said object oriented query from said client
application to said data server

44 – 64 (canceled).
